

**computergate**

A GLOBAL INDEPENDENT SERVICE PROVIDER

# OEM Warranty Services

are you covered?

Computergate provides expert OEM warranty through to end-of-life maintenance for high availability server, storage, desktop, networking and speciality related equipment, regardless of model or manufacturer, anywhere anytime. Whether you need on-going, day to day maintenance support or general coverage for break/fix services.

We understand you may have mission critical operations or just want peace of mind. No matter what your requirements are, we will be able to offer you an extended warranty service that gives you the confidence that your equipment will be repaired and back in use.

**There is no other service provider you would want to choose for:**
